

Högl steps into the new shoe season in a blaze of colour

Following current trends in women's fashion, the new Högl collection embraces a wide spectrum of colours. Ranging from bold colours to soft natural tones the diverse palette spans the entire collection, from elegant right through to sporty.

The women's fashion and footwear "**Grand Tour**" embarks on a stylish journey through different countries, exploring their cultures which are reflected in the handmade appearance and high-comfort loafer designs. Soft calfskin and nubuck leather in browns and earthy tones dominate closed styles, low heels and sandals as well as fabulous summer boots. The collection is characterised by naturalness and lots of 'handmade' details including weaving, perforations and cut-outs, as well as striking textures.

The simplicity, clean lines and glossy materials of the "**Purified**" trend in women's fashion also extend to accessories. In the Högl collection, this comes to the fore as patent leather in a wide range of colours.

Apart from the purist styles in sparkling white and subtle taupe, ballerinas, pumps, low heels and sandals also come in bright orange, hot pink, rich red or cool turquoise.

"**Summer of Love**" is the design motto for all types of open shoes which are worn with light summer dresses in white crochet or colourful seventies style. Summer is all about sandals in every style: flats or high heels, wedges or platforms, woven designs or colour blocking.

The new styles of trouser tailoring, which characterise the "**Active Mood**" casual trend, are primarily teamed with lace-up styles in a variety of colours, even in summer. Ballerinas, sneakers, desert boots and Chelsea boots, as well as summer boots and moccasins appear in washed-out effect, soft leather and suede.

The ultra light, Sacchetto-style Butterfly shoes are also set to forge their own path this season. New to the range is a low-heeled shoe with bandage-style straps.

The light wedges, made from velvet kid and patent leather come in colours ranging from soft pastels such as rosé and bleu, through to intensive tones including yellow, blue and pink.
